

THE Dream Motion™ Quilting Automation Software

THE Dream Motion™ Software allows for the ultimate quilting experience for all levels of quilters, from beginners to professionals. With an intuitive layout and easy-to-use features, you can create, design, edit your layout and quilt with absolute precision. **Choose the software package that is right for you!** Brother offers two software options to best suit your quilting automation needs. Select either **THE Dream Motion™ Software** or upgrade to **THE Dream Motion™ PRO** for added features.

**Powerful and simple to use!
Choose the one that's right for you.**

From Pattern

Choose from the vast library of 200+ included pattern designs.

To Quick Layout

Mirror or rotate patterns, or alternate patterns and rows with the touch of a finger! Place the patterns on your quilt the exact way you want.

To Quilt

Automated quilting in your own home! THE Dream Motion™ Software controls your sewing machine to accurately stitch your quilt designs.

THE Dream Motion™ Quilting Automation Software includes:

- Robotics automation
- Precision sewing and pattern placement
- Two-row pantograph design layout
- Zone-to-zone fabric management to transition patterns seamlessly across your quilt. Exclusive to THE Dream Fabric Frame System for Brother!

Plus, THE Dream Motion™ PRO Quilting Automation Software includes:

- Advanced zone-to-zone fabric management to transition patterns seamlessly throughout your quilt. Exclusive to THE Dream Fabric Frame System for Brother!
- PantoStacker for full quilt layouts
- PatternCAD to create and edit patterns
- QuiltCAD for advanced pattern layout
- Record free-motion quilting and more!

Which machine is right for YOU?

THE dream FABRIC frame

Designed Specifically for Select Brother Sewing & Quilting Machines

brother

THE Ultimate Accessory – Fits Virtually Everywhere

Introducing **THE Dream Fabric Frame**, your key to unlocking the true potential of your advanced Brother Sewing and Quilting Machines. Now you can make your workspace virtually endless. THE Dream Fabric Frame includes the **SureStitch™ Stitch Regulator** for enhanced stitch creation and control during free-motion sewing. When used with Brother machines equipped with **multi-function foot controller capabilities**, you will enjoy **built-in features** such as thread cutting and single stitch sewing – **all at your fingertips!**

Made exclusively for Brother by The Grace Company, **THE Dream Fabric Frame** gives you an **expanded workspace** for endless creativity and **more freedom to create** – all in a space smaller than you ever dreamed of. Measuring at **just 3 feet x 5 feet**, it's perfect for just about any size room, yet it handles everything – from garments to king-sized quilts! It's also **versatile** – **mount a new machine easily** in just minutes.

THE Dream Fabric Frame opens up an exciting new world of embellishment for your Brother-made machines and accessories. Easily create **thread painting, free-motion couching, appliqué, needle felting, and more!**

THE Dream Fabric Frame – Virtually Unlimited Creative Options

The first of its kind, **THE Dream Fabric Frame** opens up an exciting new world of embellishment when used with Brother machines and accessories. **Enjoy the freedom to create various techniques for endless creativity!**

- **Thread Painting**

Unleash your inner artist! THE Dream Fabric Frame is the perfect canvas for painting and drawing with thread. Add dimension and texture with ease.

- **Free-Motion Couching**

Using the optional couching foot specific to your machine, **embellish garment pieces, wall hangings, upholstery and quilts.** Simply insert the cording or yarn of your choice into the couching foot and stitch away!

- **Quilting**

With its large workspace and free-motion features, you no longer need to constantly move your fabric. **The machine does the work** as you move it across the fabric, zone-to-zone.

- **Appliqué**

Apply free-motion stitching to your appliqué pieces to **create a unique design.** Simply adhere fabric pieces in place with double-sided fusible web and stitch over the edges. Use a twin needle for a more decorative look.

- **Needle Felting**

Easily **turn roving and wool yarns into artful embellishments.** Add felting on top of embroidery, or felt a variety of fabrics without adding roving or wool, including Dupioni Silk, Cotton Flannel, and Polar Fleece.

Durable and Reliable

THE Dream Fabric Frame by Brother, developed in conjunction with The Grace Company, one of the top manufacturers for both machine and hand quilting frames, is **easy to assemble and is manufactured for durability and reliability**. Constructed with tube steel and extruded aluminum, the frame has fully welded sides, guaranteeing increased frame strength. Now you have the peace of mind knowing you never have to worry about shifting or rocking while you are creating your favorite project.

Stitch Regulation

The customized SureStitch™ Stitch Regulator provides regulated stitching and utilizes the machine's full stitch per minute range. All of this control is right at your fingertips – how convenient!

Multi-Function Foot Control Capabilities

For Brother machines equipped with multi-function foot control capabilities, you can access features such as **thread cutting, single stitch, and needle position up/down** – at your fingertips.

a. Smooth Gliding Carriage System

Your Brother machine easily fits on the smooth gliding carriage system. Simply place it on the frame's trolley system, lock it in place, and you're ready to go. The **machine glides effortlessly** with accurate movement, making it perfect for small, intricate stitching.

b. Fabric Hooks/Unique Fabric Management System

The five big hooks under the frame are perfect for **keeping your project off the floor**.

c. Sit or Stand with Height Adjustable Legs

Adjust to the perfect height – table height, standing height and a setting-in between – so you can create for hours in the position you prefer. Raise or lower in one-inch increments from 29" to 39".

d. Easy Grip Handles

Ergonomic placement of handles gives you **effortless control of the machine**. Unique handle mechanism allows the handles to be swung up and away to allow for easy bobbin exchange.

e. Ratching Rails and Ratchet Wheel

The multi-rail directional-rolling creates even tension on both the width and depth simultaneously. Easily rotate the rails using the hand wheel, **creating even tension on the surface of the fabric**.

f. Floating Take-Up Fabric

The rail stays at a continuous height so you don't have to raise or adjust it when you move your fabric to a new position. The fabric floats above the frame, out of the way of the machine's arm, **keeping your workspace free**.

g. Fabric Management Clamps

Firmly secure your fabric into place on the rails. Simply find the groove in the rail, and then easily snap into place. The included unique bungee cord system makes securing even the smallest fabrics easy!

DreamCreator™ Innov-is VQ2400 Quilting and Sewing Machine

Realize your dreams in a workspace over 10% bigger than most Brother machines!

- 561 stitches included (531 built-in, 30 on CD)
- 14 buttonhole styles
- 5 sewing lettering fonts

MuVit™ Digital Dual Feed

Powerfully feed fabric from the top and bottom. Allows you to sew precise, uniform stitches on a range of fabrics.

Automatic Height Adjuster™ AHA® Feature

Helps ensure consistent stitch length on virtually any fabric thickness.

Pivot Function

Lightning-quick pivoting allows you to leave the needle and the presser foot up to turn perfect corners.

Automatic Needle Threader

Threading the needle is as easy as pressing a button.

Bobbin Winding While Sewing

The machine can multi-task by allowing you to wind bobbins for future use while sewing.

Up to 1,050 Stitches Per Minute

With up to 1,050 stitches per minute, you can create more pieces in less time.

Included Accessories

Full range of accessories including free-motion feet and MuVit™ Digital Dual Feed.

a. 7" LCD Touch Screen Display

Provides the latest in LED back-lit technology for clear, bright, efficient viewing of all onscreen operations.

b. Vibrant 10" Runway® Lighting

50% brighter than most Brother machines.

c. 2 USB Ports

For machine updates.

d. Foot Control Port

Connect to THE Dream Motion™ Quilting Automation Software or SureStitch™ Stitch Regulator via the foot control port.

e. Thread Sensors

Upper and lower thread sensors that alert you to check threads.

f. Speed Control

Variable speed control, fast or slow, the machine retains its full power.

THE Dream Quilter™ 15 15" Needle to Arm Quilting Machine

Freedom to quilt larger patterns or blocks with a 15" x 8" workspace.

Use the LCD touch screen display to set manual speed with preset options and to set your regulated, precise and cruise speeds!

a. 5" LCD Touch Screen Display

Vibrant, easy to read screen can be adjusted to your viewing angle. Choose your baste length and manage your machine settings.

b. Accessory Ports

Plug in with the included laser stylus.

c. Dual Cones

Place a cone or spool of thread on each side of the machine.

d. SureTrack – Precision Dual Wheel Bearings

Helps increase the precision and accuracy of the machine while enhancing the overall quilting experience.

e. Custom Grip Handles: Exclusive to Brother!

Soft ergonomic handles designed to follow the contours and curves of your hands. Plus, they rotate, which allows for more control closer to the fabric surfaces!

Laser Stylus

Easy way to trace patterns or pantographs. Just attach the laser and position it to trace the desired pattern!

Built-in Bobbin Winder

A high-speed automatic bobbin winder is built into the machine, so refilling is a breeze!

Large M-Class Bobbin

Extend the time in-between each bobbin change with the large capacity M-class bobbin.

Built-in Stitch Regulator

For beautiful, precise and consistent stitches, this feature is available in three different stitching modes to give you maximum control over your quilting.

Superior Stitching

Powerful motor that delivers up to 1,800 stitches per minute. Plus, select from four different stitch modes: Precise, Cruise, Manual and Baste.

Easy Service Electronics

Updating software is easy and simple.
